WEBSITE DEVELOPER

Highly skilled and results-driven developer with 5+ years of experience in designing, implementing, testing, and maintaining cutting-edge software solutions. I bring a comprehensive understanding of the software development life cycle and a proven track record of delivering high-quality, scalable applications. Known for my problem-solving abilities and attention to detail, I have successfully contributed to the development of alumni.ucp.edu.pk

STRENGTHS AND EXPERTISE

HTML/ CSS	Bootstrap	Team Leadership
JavaScript	PHP	Problem Solving
MySQL	Wordpress	Communication Skill
Strategic Planning	Laravel	

PROFESSIONAL EXPERIENCE

QuadRoots Technology

March 2025 - Present

Junior Laravel Developer

- As a Junior Laravel Developer, I assist in developing and maintaining web applications using the Laravel framework. My responsibilities include implementing backend logic, creating and managing RESTful APIs, working with databases (MySQL), and integrating frontend components with backend services. I support senior developers in debugging issues, optimizing application performance, and ensuring clean, maintainable code following MVC architecture.
- I am involved in handling authentication, form validation, CRUD operations, and basic security practices. Additionally, I collaborate with team members using version control systems like Git, follow best practices in Laravel development, and continuously learn new tools and technologies to improve application functionality, performance, and user experience.

Tower Tech

January 2024 - March 2025

Web Master

- As a webmaster in a tower tech company, I manage website updates, customization, and runtime tasks. This includes ensuring websites are regularly updated with new content and features, customizing websites to meet specific needs, and handling day-to-day operations to ensure smooth functionality. I also oversee content management systems like WordPress, implement SEO strategies, monitor website performance, and ensure security measures are in place. Collaboration with team members and staying updated with industry trends are integral parts of my role to enhance website performance and user experience.

Miracle Soft Solutions**November 2021 - January 2024****Website Developer**

As a seasoned PHP and WordPress Developer with over two years of dedicated service at Physician Revenue Group, I have played a pivotal role in the development and maintenance of dynamic web solutions tailored to meet the unique needs of healthcare professionals.

Accomplishments:

- I have worked as a PHP and WordPress Developer at Physician Revenue Group for over two years. In this role, I was responsible for developing and maintaining PHP-based web applications and WordPress websites. My duties included coding custom functionalities, implementing responsive designs, optimizing website performance, and ensuring cross-browser compatibility. I collaborated closely with the design and marketing teams to translate project requirements into functional and user-friendly solutions. Additionally, I actively participated in project planning, code reviews, and troubleshooting to deliver high-quality deliverables within specified timelines. Through my tenure, I consistently demonstrated a strong commitment to excellence in web development and contributed to the success of numerous projects within the organization.

Single Solution**August 2020 - October 2021****Website Developer**

This experience not only honed my technical abilities but also deepened my understanding of industry best practices and emerging trends, positioning me as a versatile and dedicated developer in the field.

Accomplishments:

- I have garnered over one year of valuable experience as a PHP and WordPress Developer at Single Solution. Throughout my tenure, I actively engaged in developing and maintaining PHP-based web applications and WordPress websites. Embracing a continuous learning approach, I concurrently expanded my proficiency in PHP and WordPress technologies. My responsibilities encompassed coding dynamic features, ensuring responsive designs, and optimizing website performance to enhance user experiences. Working collaboratively with cross-functional teams, I contributed to the successful delivery of various projects, leveraging my skills in PHP and WordPress development.
